

OKU

Solar heating for swimming pools – installation with 24 OKU-Absorbers in 4 rows

– operation with filter pump via three-way motor ball valve and difference temperature regulation

1 OKU-Absorber (panels)

2 Difference-temperature regulation

3 Filter with pump

4 Solar circuit forward and return

5 Three-way motor ball valve

6 Temperature sensor panels

7 Temperature sensor, swimming pool

8 Vent valve

9 Downdraft brake

10 Drain cock

11 Pump for solar circuit

12 Non-return valve
